NICOLE SENTIS

Hoorn, NH | (+31) 06 204 803 10 | nicole.sentis@gmail.com | www.linkedin.com/in/nicolesentis
https://github.com/NicoleAMS | https://www.nicolesentis.nl

Junior Frontend Developer

Junior frontend developer with 9 months of work experience in both front-end and full-stack development and an HBO-level diploma in Software Development (front-end focus). Loves learning, brainstorming, teamwork and a good cup of tea.

- HTML5 | CSS3 / SCSS / SASS / Bootstrap 3 & 4
- JavaScript (ES5 / ES6) | jQuery | Jasmine | APIs
- Web Components / basics of Vue and Angular 2+

- Git / GitHub / Bitbucket
- Working from home | Online communication | Agile
- Dutch (native) | English (fluent – C2 level)

RELEVANT EXPERIENCE

OpenClassrooms Online
Student Community Ambassador for Programming Students (voluntary role) September 2020 – present
- Creating, promoting and managing 3 groups on Workplace (algorithms, frontend, JavaScript) in which I organise challenges and share educational articles.
- Collaborating with OC's Student Success Manager and other ambassadors to come up with new ideas for improvement.
- Sharing educational / funny / inspirational posts, asked questions, answering code-related questions.

We Got Coders - Consultancy Hoddesdon (UK) / Remote working
Trainee Ruby on Rails Developer February 2018 – May 2018
- Contributed as part of a small agile team to multiple features and fixes for a client (an online education provider).
- Key achievement: built a responsive homepage carousel of which the number and order of slides, texts, URLs/ video links and background images can be dynamically set by an admin and in multiple languages.
- Main technologies: Rails 5.0.4, Bootstrap 3.3.7, SCSS, Rspec, RailsAdmin, Ooyala, I18n, translation.io, GitHub, Pivotal Tracker, Slack, Skype.

Golden Trident Limited London (UK) / Remote working
Junior Frontend Developer July 2017 – January 2018
- Trained in Angular 4 (mostly self-study).
- Researched, designed, developed and debugged demo-applications for clients using Angular 4, Bootstrap 4, Google Firebase.

RELEVANT EDUCATION

OpenClassrooms Online (Based in Paris, France)
Front-End Developer Diploma Path July 2019 – August 2020
- HBO-level / level 6 EQF diploma in: Web Development *(registered with the French National Directory of Professional Certifications)*.
- Mentor- and webinar-based training + 9 real-life projects *(see below, marked [OC])*.
Various courses related to web development and career October 2018 – Present

We Got Coders - Bootcamp Hoddesdon (UK)
Full-Stack Ruby on Rails Bootcamp August 2016 – February 2017
- Intensive classroom-based training with pair-programming and group work.
- Focus on: Ruby, Ruby on Rails, Databases (SQL), HTTP & REST, front-end development, JavaScript MVC, scalability, and agile development.

KEY PROJECTS

[OC] Enhancing an existing code base   https://github.com/NicoleAMS/enhance-project
- Debugged & optimised code, added missing Jasmine tests, wrote technical documentation, analysed a competitor performance audit.
- Technologies: JavaScript (ES5), Jasmine, Chrome Developer Tools, Lighthouse, documentation.js.

[OC] Object-Oriented Turn-Based Board Game   https://github.com/NicoleAMS/board_game
- Object-Oriented turn-based board game which I designed and developed based on a brief, but with a few personal touches.
- Technologies: HTML5, CSS3, JavaScript, jQuery.

[OC] Restaurant Review Single Page Application   https://github.com/NicoleAMS/restaurant_review
- SPA built with Web Components (no front-end framework) that shows restaurants in your area and their reviews. Uses Google Maps and Google Places APIs, but users can also add restaurants and reviews.
- Main technologies: JavaScript (ES6), Web Components, Webpack, Google Maps API, Google Places API.

[OC] Film Festival Prototype Website   https://github.com/NicoleAMS/outdoor_cinema_event_website
- Prototype website for an imaginary outdoor film festival, which was designed and developed based on a brief with specific requirements. Also includes a project outline brief for the imaginary client.
- Main technologies: SCSS, Bootstrap 4, Gulp.

For more projects see my portfolio site and GitHub profile.

ADDITIONAL WORK EXPERIENCE

Oxfam Books & Music, Jesmond   Newcastle-upon-Tyne (UK)
Shop Assistant | Supervisor | Volunteer   June 2015 – July 2016
Key achievements: increased sale of art books within a month, managed shop's Facebook page, ran shop when shop manager was out.
